

ABOUT BEHIND THE DOOR

Behind the Door is 15 (!) years on Czech jazz scene, despite the average age of its members being 30. How is that possible? They play together since their teen-age, growing up together musicall, all becoming music professionals. Behind the Door is a highly genuine project with a repertoire assembled exclusively from originals written by its members.

Their compositions draw on all kinds of genres - mostly fusion, latin jazz, modern jazz and smooth jazz, but also pop, folk, rock and even melodies surprisingly close to classical music. Listening to Behind the Door is like embarking on a journey across the musical world by means of instrumental storytelling. Moreover, they are able to add very rare spice to their musical meal, which is humour.

Behind the Door is for the 15 years vital part of Czech music scene, performing regularly in clubs not only in Czechia, but also Slovakia and Poland. They did a tour over the Baltic states, where they played in all capital cities. They have released three albums, the last of them called „*Proti proudu*“ („*Against a Stream*“). They performed at several prestigious festivals including Prague Proms or Colours of Ostrava.
